

# Digital Performance Platform

A unified intelligence portal bringing real-time visibility into athlete management, federation governance, event operations, and national sports budget — powered by AI.

# The Vision

*Transforming Kuwait's sports ecosystem through a centralized digital command center*

1

## Centralized Data

All 8 critical modules — from athlete registration to budget allocation — unified in one portal. No more siloed spreadsheets or disconnected reports.

2

## Real-Time Intelligence

Live KPIs, trend analysis, and automated anomaly detection keep leadership informed at every level — executive, federation, and ground operations.

3

## AI-Powered Insights

A conversational AI Hub lets decision-makers query any metric in natural language — getting instant answers without navigating complex dashboards.

# 4 Integrated Modules • One Unified Portal

Purpose-built for Kuwait's General Authority for Sport — select a module to explore its capabilities.

LIVE DASHBOARDS

## The Portal

# 8 Integrated Modules

Each module is purpose-built for a specific domain of national sports governance

## 1 Executive

High-level KPI overview, cross-module summaries, and leadership reporting

## 2 Athlete Management

Registration, performance tracking, career history, and medical records

## 3 Federation

Federation compliance, governance metrics, and organizational health

## 4 Youth Development

Youth programs, school partnerships, grassroots participation stats

## 5 Anti-Doping

Test scheduling, compliance rates, violation tracking, WADA alignment

## 6 Facilities

Venue utilization, maintenance schedules, capacity planning

## 7 Events

Event calendar, participation tracking, logistics, and results

## 8 Budget & Finance

Allocation tracking, spending vs. budget, quarterly forecasting

General Authority for Sport - Kuwait

# What the AI Chat Can Do

Your entire sports data ecosystem, accessible through conversation

1

## Natural Language Queries in ARABIC

Ask "How many athletes registered in Q1?" and get instant, accurate answers with supporting data.

2

## Cross-Module Intelligence

The AI connects data across all 8 modules — correlating budget spend with athlete performance, or facility usage with event outcomes.

3

## Anomaly Detection

Proactive alerts when metrics deviate from expected patterns — like a sudden drop in youth registrations or unexpected budget overruns.

### SpectroNOVA Chat AI Hub — Live Conversation

What's our budget utilization?

Budget utilization is at **78%** with 3 months remaining.

Facilities: **92%**

Training: **68%**

Events: **71%**

Flag anything over 85%

⚠ Facilities maintenance is at **92%** — 15% over projection. Recommend reallocation review.
